# IGNITING FUTURE WOMEN LEADERS

EF WOMEN'S WEBINAR SERIES

Each session in the series will focus on a **theme in leadership**. Listening and engaging with youth voices from around the world as experienced leaders share their journeys. Young women participating will compare and contrast the opportunities and challenges that they face today. Throughout the series of conversations, key issues will be surfaced and discussed. The EF Women's Leadership Network Fellows and colleagues will identify where they can make a difference around the world.

The series kicked off during the EF Annual Meeting on May 14, 2024. Sessions will align with key EF events over the next year on a rolling basis.

The first session, **Women in Politics: Leading the Nation**, was hosted live at Philadelphia City Hall. Here is the [link](#) to the video. **Philadelphia Mayor Cherelle Parker (USA 2010)**, former New Jersey Governor **Christine Todd Whitman** and former nine-term U.S. Representative **Jane Harman** discussed Women in Politics in the United States, moderated by **Alison Young (USA 2017)**.

The panel discussion was joined by youth voices live from around the world with ten different youth groups represented in the audience. Here is [link](#) to photos from the event.

## OTHER THEMES AND CONCEPTS:

All sessions will be recorded, posted and available for your viewing pleasure.

- Character matters
- The power of networking
- 50 years of women's progress
- Arts, culture and media
- Technology transforming professions
- Women entrepreneurship
- Global volunteerism

# HOST A 'WATCH PARTY' TOOLKIT

**This activity is designed to provide Fellows an opportunity to introduce young women to Eisenhower Fellowships with a focus on igniting a spark within future women leaders.**

Fellows are encouraged to host local 'watch parties' to screen sessions from the webinar series in person or virtually with young women in their country or region.

## **Prework**

Fellows should screen the webinar in advance and prepare discussion questions that will be most relevant to your selected audience.

## **What:**

Host Fellow gives a brief introduction to EF and the local chapter. Watch the recorded session and discuss the relevance or differences in your geography.

## **Who:**

Contact a school or not-for-profit of your choice to discuss the activity and best time to deliver it. Group size can be intimate or large depending on your preference. Make any adjustments to the discussion per the audience size. These sessions target young women ages 15-22.

## **When:**

Anytime, at the Fellow's and partner/students' convenience. Eisenhower Day of Impact (October 14, 2024) could be a perfect time to host an event.

## **Session Duration:**

1 to 1.5 hours

## **Content in Video Library**
